NECK-THRU MODELS

NS™-Body Models

Our neck-thru designs represent the pinnacle of hand-made instrument construction. Each of our neck-thru models, from the legendary **NS™-Bass** to our new **X-Body™** basses, are made by Stuart Spector and his master instrument makers with the finest attention to detail. Tone, playability, versatility, and quality are all present in a balance that has made our basses the chosen conduit of expression for countless notable bassists. We invite you to experience these rare instruments at one of our newly established **USA Stocking Dealers**.

For a complete list of **SPECTOR®** Dealers near you, visit our Dealer Locator on our website; www.spectorbass.com

BOLT-ON MODELS

NS™-Body Models

Our **USA Series™** Bolt-On Basses offer a the same quality, tonal range and versatility as our Neck-Thru basses but are specifically designed for those who desire the feel and sound of a bolt-on neck. Lighter than our **Neck-Thru NS™-Bass** Models but with the same ergonomic design that makes the **NS™-Bass** so comfortable to play.

A newer-modified **NS™-Body** design. This design uses the original **NS™-Body** profile but has less rounding of the main body planes. The horns are not as round and the back body curve is slightly less dramatic than our **Neck-Thru NS™-Bass Models**.

Special Edition Models

From time-to-time Stuart Spector acquires rare tone-woods in limited amounts. On a limited basis as such woods come available; **SPECTOR®** will use them to build our **SPECIAL EDITION "SE" LIMITED-RUN MODELS™**.

These models will be specially signed and numbered by Stuart Spector, each run starting with serial "Number 1".

Coda™ Models

The **Coda™ Bass** is the perfect example of how Stuart looks to take classic ideas and put a decidedly **SPECTOR®** twist on them. Part homage to the great bass sounds and styles of the past and yet new and refreshing because of the attention to detail and hand-crafted construction, the **Coda™** is nothing short of a new **SPECTOR®** Classic.

Do not let the familiar and more traditional styling deceive you. This bass is a thoroughbred **SPECTOR®** through and through. All of the things that make our **NS™-Bass** models so popular are present in the **Coda™**.

EUROPE SERIES™

NECK-THRU MODELS

Our **Europe Series™** Neck-Thru basses are true production versions of our famous **USA Series™ Hand-Made** models. Each is precision crafted using the finest materials in our Czech Republic factory. Featuring **USA Rock Maple** Necks, from the same source we use to craft our **USA Series™** Neck-Thru models; the heart of these basses is pure **SPECTOR®**. These models also feature active **EMG®** pickups, our 9v **TonePump™** circuit and **Schaller®** tuners and strap locks. All of our 4-string models are available with **35"** scales and optional **BEAD** tuning. Make no mistake about it, these are some of the finest basses that can be purchased.

Signature Artist Editions

Our **signature artist models** were originally designed and commissioned by our artists to specifically address their playing style and tonal needs.

They were originally built as "**custom**" models. We see these modifications as an evolution of our standard models and as such are excited to be able to offer them to you.

Forte™ Models

Our **USA Series™** models offer the finest materials, construction and features of all our model lines; but as such they are expensive investments. **The Forte™** Models were developed to bring the essence of what is our **USA Series™** Basses to a price point that is greatly reduced from our other Neck-Thru USA models. We like to say they are "**No Frills, All Tone.**"™
